FELIPE GUMALO
ENGINEER I

ALAN FELIX MACARAYA
Regional Director, NTC VII

- An application was declined due to a computation error. The SOA was edited to correct the calculation, but when viewing the Official Receipt, it did not update even after the application was declined, despite the SOA already being corrected.

Contact Number	09917143748		Email Address			
EXAM/SEMINAR DETAILS						
Place of Exam/Seminar	NTC Mandaue City		Date (mm/dd/yy)		Rating	
DECLARATION						

- There are some applications where, even after approval, the date of birth is automatically changed.
- Most of the applications with a surcharge and SUF have computation errors.
- Is it possible for the client to edit the registration type from Company to Individual, or vice versa?
- The client cannot pay simultaneously if they have applied for more than one license or certificate. This means they have to pay one by one, which is more of a hassle because they need to repeatedly monitor or click 'Proceed to Payment'.
- In the SOA, if the client pays for items like the CTC (Certified True Copy), surcharges, etc., the amount reflects under the 'Others' tab. It should display the specific item paid for, not just the word 'Others'.
- If the client inputs incorrect details such as serial numbers, certificate numbers, license numbers, etc., some of the other basic information automatically changes after we make edits.
- Most of the surcharge and SUF computations are incorrect.
- For example, in the search bar, if the evaluator types 'Radio Operator Certificate', there should be an option to filter only those marked as 'Completed'. Additionally, there should be a 'See More' option so that all results can be viewed.

radio operator certificate
